

THE GOBLIN

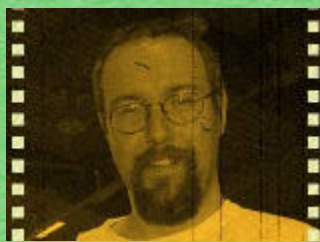

"You don't stop playing because you grew older, you grow older because you stopped playing ..."

Omnipresence. As long as The Goblin is your friend, you can play as many Games you like in your turn, instead of playing only one.

SIL

"I think it could be better with a small change in the rules ..."

Import/Export. As long as Sil is your friend, you can play as many Items you like during your turn, instead of playing only one.

WOLFLOD

"Aha! This new configuration gives me a good 0.01% more efficiency against you all... PROTI!"

Powerplay. As long as Wolford is your friend, any opponent participating in a Game you played has a -1 malus to his die roll.

DIO

"Ehy, that's mine!"

Mystic Strength. As long as Dio is your friend, at the start of your turn you may randomly steal one card from the hand of an opponent (your choice).

LOBO

"I'm sorry, but you know: Jove's thunderbolts strike the good as well as the sinner..."

Unending Options. As long as Lobo is your friend, your hand is increased to 6 cards (instead of 5). At the beginning of your turns you draw up to 6 cards. At the end of your turns you are not forced to discard with 6 or less cards in hand.

XARXUS

"Yeah, I've got it, I understand what that card does... Could I read it now, please?"

Clairvoyance. As long as Xarxus is your friend, at the start of your turn, before drawing cards, you can examine the first card in the deck and choose to leave it in place or place it at the bottom (without revealing it to your opponents).

CIPPACOMETA

"Mmmh... shit, hunger, sleep!"

Friendly behaviour. As long as Cippacometa is your friend, you gain 1GP each time that someone (including yourself) plays a Friend card.

MANÜ

"Why are you all angry with me? I'm so good, kind, agreeable, I don't give you any trouble... hey you, bastard, take this - KABOOM!"

Charm. As long as Manu is your friend, you gain a +1 bonu to your die rolls each time you participate in Games played by your opponents.

I'm cheating you

"Hey, take a look at this spinning meta: hand useful to choose who's gonna play first... you need it, ah? You can't live without it! And I'm going to trade it for that old and worn signed Black Lotus you have just there..."

When you play this card, you may immediately swap one of your Items in play with one of an opponent (your choice), even if they have different GPs values.
