## I giochi più posseduti e il costo totale in milioni di \$\$!

La settimana scorsa ho provato a creare una lista per trovare quale fosse il gioco più giocato ma giustamente siete finiti a dare tanti modi differenti di misurare i giochi (per giocatori o ore, etc..) Così ho provato l'approccio \$\$\$\$. Le persone prima pagano per comprare un gioco e poi vedono cosa esce fuori.

Ho preso i 200 giochi con il voto più alto e li ho inseriti in lista per numero di possessori.

Note: ho anche aggiunto una lista dei costi totali alla fine così che si possa consultare.

### 1. Settlers of Catan, The [Average Rating:8.02 Overall Rank:9]

Norm B.  
(northmane)

Bene, non voglio parlare di questi perché sembra che tutti li abbiano. I Coloni si attesta al primo posto. Solamente tre giochi rompono la barriera dei 2000.

I Coloni di Catan 2775  
Carcassonne 2688  
Puerto Rico 2256

### 2. Bohnanza [Average Rating:7.40 Overall Rank:114]

Norm B.  
(northmane)

Bohnanza è in testa al gruppo tra i 2000- >1000 e si inserisce come miglior gioco di carte

Carcassonne-expansion ottiene "l'espansione più acquistata"

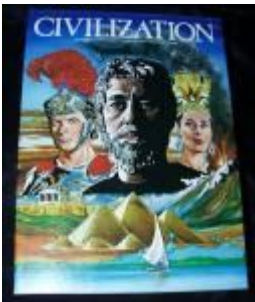

Dalla lista emerge che meno della metà delle persone che possiede un gioco spende soldi per un'espansione. I Marinai di Catan è l'espansione di Catan più acquistata, segue subito dietro Città e Cavalieri.

Una nota, sono sorpreso dal fatto che benché tante persone attualmente posseggano Cosmic Encounters (1132) siano state registrate solamente 137 partite. Ho comprato la nuova versione scontata ma devo ancora giocarla.

Bohnanza 1751
